

**PLAKA - ANKROBRICK**

Screw on profile

REF 02.08.01 - Version V01 - 10/08/2020

**Description**

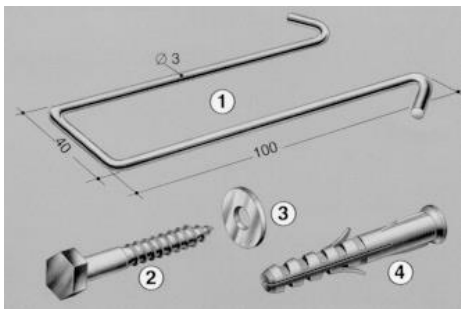

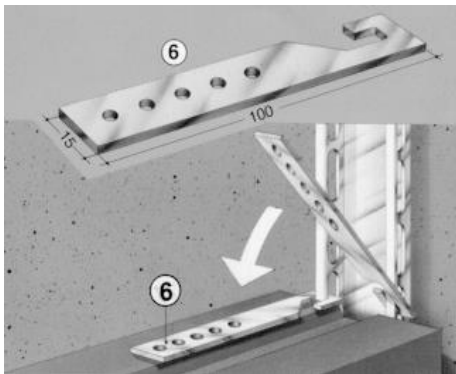

The ANKROBRICK system consists of a profile in which special wall ties or flat anchors can be inserted. The profile can be fixed by adapted plugs and screws. The wall ties and the flat anchors have a shape that fits the slots in the profile.

**Application fields**

When a wall end made out of bricks or blocks has to be anchored to an existing concrete or brick or block wall.

**Application instructions**

- Fix the ANKROBRICK profile on the existing structure with the adapted plugs and screws.
- While mounting the bricks / blocks:
  - In case of an existing brick wall, insert the adapted wall ties into the horizontal mortar joint.
  - In case of blocks, install the flat anchors into the mortar joint.
- Place a flexible joint along the ANKROBRICK profile.

- ① galvanized wall tie
- ② screw
- ③ washer
- ④ plastic plug
- ⑤ galvanized profile
- ⑥ flat anchors for cellular blocks,...
